8. We can find out whether the tea is hot or cold just by..... it.

9. We get the feeling of ..... when we are injured.

10. We can find out the colour of a leaf by just ..... it.

### Source based question

When we go out, we often hear birds chirping, children making all kinds of sounds and vehicles or animals making different types of sounds. Our ears help us to listen to all these different sounds and to recognise them. They also tell us the direction from where a given sound is coming. Ears also help us to differentiate between loud sounds and gentle sounds. Very loud sounds are unpleasant and harmful for our ears.

11. What type of sounds are differentiated by our ears?

12. What does our ears help us to do?

13. How do we feel when a bus tyre bursts in front of us?

14. List some pleasant and unpleasant sound around us.

15. How does the blindfolded child recognise the speaker?

### Answer the following question

16. Write any three ways to take care of our sense organs.

17. Which is the largest organ of our body?

18. What is the average length of the human tongue ?

### Something to do (Projects)

19. Take some eatables like bananas, salted cucumber, lemons and bitter gourd juice. Taste them one by one and experience then write the taste of each.

20. Draw the faces of given emotions-

- A. Angry      B. Scared      C. shy      D. happy      E. Lonely

### Activity

Create puppets for each of the five sense organs.

### Instructions for students

- . Write neatly in your science notebook.
- . Keep your work clean and creative.
- . Projects should be done on A4 sheet.

## SUBJECT – SOCIAL SCIENCE

Note - Question should be done in S .S.T copy and project in the A-4 size paper

### A. One Word Questions .

1 What do we call a family with grandparents, parents, and children living together?

- 2 What relation is your father's brother to you?
- 3 What do we call the female child in a family?
